

Mr. Louis Nichols

-2-

August 22, 1956

at least you might be able to assure us that you have tracked down the source and that you believe the further flow of such malicious communications will cease. I would be deeply appreciative if the FBI could get into this matter to this limited extent. I think it is particularly pertinent to your function just because the information was not vague and was so clearly malicious, as shown by the fact that the accusation involved a public record easily susceptible to disproof.

Yours,

Morris L. Ernst
